

The 51st ENC

Experimental Nuclear Magnetic Resonance Conference

April 18 – April 23, 2010 • Hilton Daytona Beach, Florida

LEAD RETRIEVAL FOR VENDORS

LEAD RETRIEVAL. As in past years there will be the capability for lead retrieval. Conferee name badges will have a bar code containing contact information. **A PDF imager-type scanner is needed to read the ENC bar codes.** IMPORTANT NOTE: If you have purchased a scanner for use at past ENC's or if you have a scanner but are not sure it will work, please download the sample name badges and perform a test.

If you are interested in purchasing a scanner, please follow the link below to POS Micro. This online retailer sells a variety of PDF Imager-type scanners.

Most scanners will attach via USB cable to your lap top computer and the information is saved as a text file. Information for purchasing the scanner is as follows:

- For description and cost information, go to:
http://www.posmicro.com/Scanners/Metrologic/metrologic_ms9544.htm
- The model is MS9544 Voyager PDF.
- The scanner is a pdf imager (pdf has nothing to do with Adobe Acrobat), with a 12' cord and a USB interface.
- Phone number to purchase: 1-800-241-6264.

Once you have purchased your scanner, or if you have a scanner in your office that you would like to use at the conference, please download the name badge sample from the 'Exhibitor' page of the website.

If you have questions, please contact Jennifer Watson at jennifer@enc-conference.org.

Thank you!
